

Note: this guide can be printed by leaflet or by section, depending on the title selected.

Contents

Introduction (485 Ko)

1. Survey of the Wild Blueberry Industry in Québec (281 Ko)
2. Production in Numbers (290 Ko)

Development (1,1 Mo)

3. Evaluating and Developing a Wild Blueberry Field (865 Ko)
4. Levelling Land for Wild Blueberry Fields (325 Ko)

General Aspects of Production (3,8 Mo)

5. Growth and Development of the Wild Blueberry (566 Ko)
6. Frost Prevention in Wild Blueberry Fields (357 Ko)
7. Filling Bare Spots in Wild Blueberry Fields (320 Ko)
8. Windbreaks and Shelterbelts (333 Ko)
9. Pruning in Wild Blueberry Fields (462 Ko)
10. Using Mulches in Wild Blueberry Fields (528 Ko)
11. Irrigation (texte to come)
12. Riparian Strips (Aménagement des bandes riveraines de protection dans les bleuetières) (501 Ko)
- 13a. Other Production Modes: The Forest/Blueberry Production Model (400 Ko)
- 13b. Other Production Modes: Organic Production of Wild Blueberries (291 Ko)
- 13c. Other Production Modes: Boreal Wild Blueberries (291 Ko)
14. Phenological Stages of the Wild Blueberry (668 Ko)

Integrated Pest Management (3,1 Mo)

15. Integrated Pest Management in Wild Blueberry Production (289 Ko)
16. Sustainable Management Through Biodiversity (284 Ko)
17. Pruning as a Method of Protection against Blueberry Pests (288 Ko)
18. Local Application of Herbicides Using a GPS (375 Ko)
19. Pesticides Used in Wild Blueberry Production (366 Ko)
20. Sprayer Calibration (466 Ko)
21. Wick Applicator Calibration (568 Ko)
22. Granular Spreader Calibration (499 Ko)
23. Valmar Calibration (363 Ko)
24. Dealing with the Issue of Hexazinone Use in Blueberry Fields (291 Ko)
25. Best Practices for Hexazinone Use in Blueberry Fields (344 Ko)

Pollination (2,0 Mo)

26. Pollinating Wild Blueberries (320 Ko)
27. Foraging Patches to Attract Native Pollinators (407 Ko)
28. Determining Percent Fruit Set (323 Ko)
29. Managing Bee Hives in Wild Blueberry Fields (347 Ko)
30. Managing Native Pollinators in Wild Blueberry Fields (310 Ko)
31. Using Alfalfa Leafcutter Bees to Pollinate Wild Blueberries (511 Ko)
32. Bumblebees as Complementary Pollinators in Wild Blueberry Fields (298 Ko)

Insect Pests (1,6 Mo)

33. Blueberry Flea Beetle (506 Ko)
34. Blueberry Spanworm (478 Ko)
35. Blueberry Maggot (530 Ko)
36. Blueberry Spittlebug (334 Ko)

Diseases (1,7 Mo)

- 37. Monilinia Blight (696 Ko)
- 38. Septoria Leaf Spot (340 Ko)
- 39. Blueberry Leaf Rust (337 Ko)
- 40. Powdery Mildew (333 Ko)
- 41. Valdensinia Leaf Spot (341 Ko)

Weeds (2,3 Mo)

- 42. Lambkill (325 Ko)
- 43. Sweet-Fern (363 Ko)
- 44. Bunchberry (336 Ko)
- 45. Bracken Fern (528 Ko)
- 46. Grasses and Sedges (331 Ko)
- 47. Woody Plants (390 Ko)
- 48. Narrowleaf Cow-Wheat (278 Ko)
- 49. Reindeer Lichen (392 Ko)

Soil Fertility (577 Ko)

- 50. Soil and Leaf Sampling (374 Ko)
- 51. Fertilization in Wild Blueberry Production (289 Ko)

Harvesting (815 Ko)

- 52. Harvesting Wild Blueberries (418 Ko)
- 53. Quality Control (275 Ko)
- 54. Traceability: Safety for Consumers and Producers (277 Ko)

Economic Aspects (478 Ko)

- 55. Economic Aspects (289 Ko)
- 56. Insurance and Income Protection (278 Ko)

Miscellaneous (1,3 Mo)

- 57. Accident Prevention Plan (291 Ko)
- 58. Environmental and Regulatory Requirements for Operating a Blueberry Field (301 Ko)
- 59. The *Syndicat des producteurs de bleuets du Québec...* The Power of Blue (351 Ko)
- 60. Resource Persons in Québec (281 Ko)
- 61. Conversion Table of Units Used in Production (283 Ko)
- 62. French, English and Latin Names of Insects, Diseases and Plants Encountered in Blueberry Fields (295 Ko)

PROJECT COORDINATION

Sophie Gagnon, Agronomist, Project Management Coordinator, Agrinova, Alma

PUBLISHING

Chantale Ferland, M.Sc., Publishing Project Officer, CRAAQ, Québec

Lyne Lauzon, Publications Coordinator, CRAAQ, Québec

TRANSLATION

Rod Willmot, M.A.

LAYOUT AND GRAPHIC DESIGN

Sylvie Robitaille, Computer Graphics Technician, CRAAQ, Québec

PRODUCED BY

FUNDED BY

Association
des producteurs
de bleuets de
la Côte-Nord

This project was made possible thanks to support from the Conseil pour le développement de l'agriculture du Québec (CDAQ) and the sector councils of Nova Scotia and New Brunswick.
