### UK Market Snapshot:

#### a brief summary of market penetration and promotional support

OCTOBER 2014

nicholas and knight

WILD BLUEBETZTZIES IN EUTZOPE

"If you do a trade show, I will attend" "YES YES YES! Keep fighting the supermarkets to stock them"

"I hope to see your berries VERY soon!"

*"I would definitely buy some!"* 

"There's lots about them in the media" "It is a shame that supermarkets are reluctant to sell them"

> "I'll spread the word"

"Canadian Wild Blueberries in a jar? Absolutely GREAT IDEA!"

"I was fascinated by the ITV Tonight programme!"

Bakery, dairy, snacks, drinks, cereal, health, cheese, confectionery, kids, spreads, innovation...

#### Rohware für die Industrie

#### IQF-Ware

Wilde Blaubeeren aus Nordamerika werden auf dem Höhepunkt ihrer Reife im schonenden IQF-Verfahren (Individually Quick Frozen) freirollend schockgefroren. Die einzeine Beere bleibt unversehrt, nichts klebt zusammen. Der einzigartige Geschmack, das intensive Antena und der Nährwert der Wildfrucht werden bewahrt. Die erntefrische Qualifält der IQF-Beeren bleibt mindestens zwei Jahre erhalten.

#### Trockenfrucht

Tiefgefrorene wilde Blaubeeren werden aufgetaut und unter Zusatz von Rohrzucker oder Fruchtsaft gekocht. Ist der gewünschte Bris-Gehalt erreicht, trocknen die Beeren im Bandtrockner bei einem 80 bis 90 °C heißen Luftstrom. Anschließerd kühlen sie ab, bis sie eine gleichmäßige Feuchtigkeit von 13% bis 15% aufweisen.

#### Konzentrat

Konzentrat aus wilden Blaubeeren ist flüssig und sedimentfrei. Die Beeren werden ohne Zusatz- und Konservierungsstoffe bei riedriger Temperatur schorend verarbeitet, so dass wertvolle Inhaltsstoffe erhalten bleiben. WILD BLUEBETZTZIES
